Strategic Plan Goal 4: Achieving Excellence in Scientific Research

ACHIEVING EXCELLENCE IN SCIENTIFIC RESEARCH

Vice Deanship of Postgraduate Studies and Research (VDPSR) of Prince Sultan Military College of Health Sciences (PSMCHS) supports the College in achieving excellence in scientific research (Goal No. 4). This approach is in line with the PSMCHS's mission to educating and training health care professionals with competitive abilities and leadership skills by offering academic programs, research opportunities, and providing community services, following the best quality standards for the development of health care at the national level.

SCIENTIFIC RESEARCH UNIT

Scientific Research Unit participates in preparing and implementing PSMCHS research plans, establishes research cooperation in research, and works to obtain grants required for funding research projects.

SCIENTIFIC RESEARCH SERVICES

- Promote a culture of scientific integrity through the principles of scientific integrity.
- Develop research projects and publish articles in peer-reviewed publications.
- Provide guidance to academic colleagues in their research.
- Facilitate College Research Grants funded by the Ministry of Defense, Health Services Division.
- Organize and conduct research training & activities (e.g., lectures, workshops, research days).
- Assist academic colleagues in statistical data analysis.
- Facilitate publication fees request by faculty members.
- Verify journals' indexing submitted by the researchers.
- Provide research software & tools to academic colleagues.
